

13 ans de revenus des professionnels libéraux

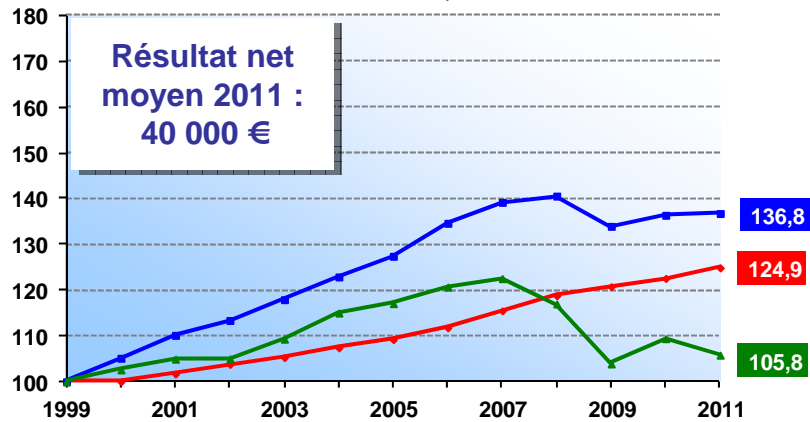

Evolution des recettes et résultats nets des professionnels libéraux en France 1999 à 2011

- Les courbes d'évolutions statistiques des revenus professionnels libéraux ont été établies à partir de 150 000 déclarations fiscales vérifiées par des associations agréées.
- Afin d'établir ces graphiques, il n'était pas concevable sur des petites populations, de comparer les recettes moyennes et résultats moyens sur ces 13 années. Les populations évoluent, les professionnels qui les composent ne sont pas les mêmes d'année en année.
- Chaque année, sont publiées des statistiques d'évolution en pourcentage sur 2 ans en population constante.
- Les diapositives qui suivent sont la combinaison graphique sur 13 ans des pourcentages d'évolution ci-dessus définis
- Le principe retenu est celui d'une base 100 en 1999 pour les 3 indices. Celui décrivant le coût à la consommation (incluant le coût du tabac) provient des chiffres publiés par l'INSEE
- Ces données, non exhaustives, ne sont qu'indicatives. Elles ne traduisent que des tendances sectorielles

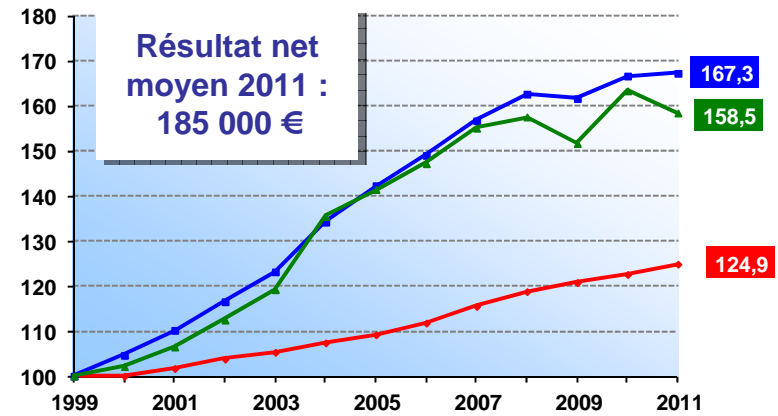

Evolution des recettes et résultats nets
Regroupements sectoriels
1999 à 2011

PROFESSIONS TECHNIQUES

Population 2011 : 20 165

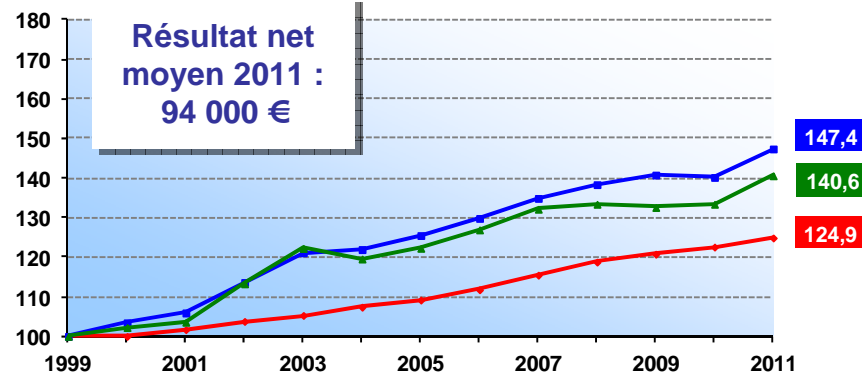

PROFESSIONS JURIDIQUES

Population 2011 : 2 438

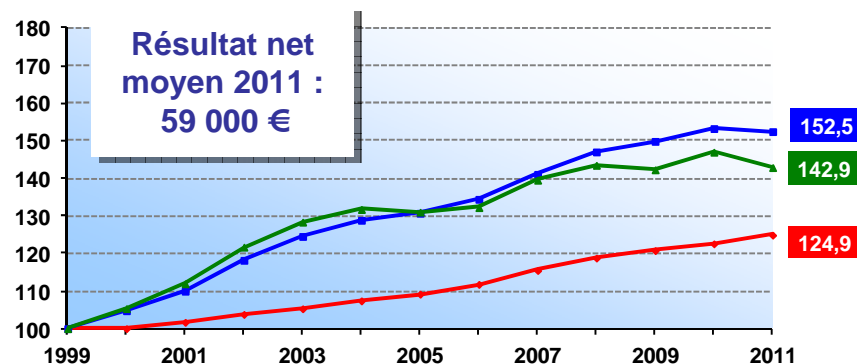

— Recettes base 100 en 1999 — Résultat Base 100 en 1999 — Indice du coût à la consommation

PROFESSIONS MEDICALES

Population 2011 : 21 865

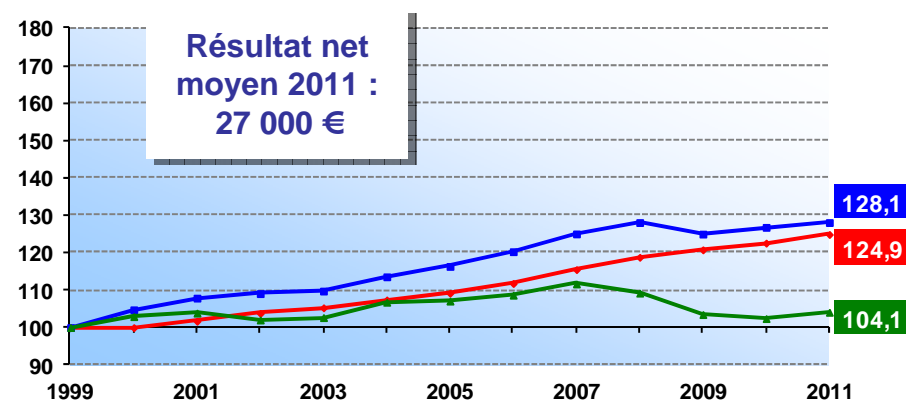

PROFESSIONS PARA MEDICALES

Population 2011 : 35 449

PROFESSIONS ARTISTIQUES & D'ENSEIGNEMENT

Population 2011 : 6 553

Evolution des recettes et résultats nets par profession 1999 à 2011

- PROFESSIONS TECHNIQUES
- PROFESSIONS JURIDIQUES
- PROFESSIONS MEDICALES
- PROFESSIONS PARA-MEDICALES
- PROFESSIONS ARTISTIQUES ET D' ENSEIGNEMENT
